## What every SMART display comes with

Every SMART for Business display comes with a promise to help corporate professionals, higher educators, and government agents across the world to make meetings more effective:

- SMART offers the ONLY inking experience on the market that enables users to directly ink into Microsoft Office and PDF files without clunky overlays or annotations
- Every display goes through rigorous accelerated life testing and are built to last, saving your organization money and stress
- We offer unlimited professional training and support to partners and customers

If you have any questions, connect with your SMART Representative:
