Keep projects moving and ideas flowing with SMART

Meet, share, and ideate — together.

Transform the way you draft, design, present, brainstorm or train with SMART Board® interactive displays. Only SMART allows participants to pick up a pen and write directly into and save annotations in original file formats to reference later, effortlessly turning ideas into actions.

Hassle-free tech your team will love

With easy-to-use tools like our industry-leading SMART Ink®, anyone can get involved without any complicated menus, overlays, or unnecessary steps to instantly markup design drawings and project files for hands-on creativity and collaboration.

Streamline integration and compatibility

SMART solutions fit seamlessly into your existing technology setup so you can get the most out of your technology investments. Unleash full hybrid collaboration by connecting through Microsoft Teams, Google Meet, Zoom, and Webex and more.

SMART makes it easy to maintain and support your investment over the years, with automatic OTA updates, and SMART Assure warranty for 24/7 tech support and seamless coverage to assure a lifetime of optimal usage.

Works seamlessly with Microsoft 365 Office apps and common file formats, including PowerPoint and PDFs

CRESTRON CONNECTED

Certified with Crestron Connected® and XiO Cloud®

Give your teams a platform
to ideate, create, make
progress and inspire.
