Solutions for public safety agencies and emergency services

Get trainees and teams on the same page, faster

Transform critical training

Enhance every training session by simulating realistic and engaging scenarios with our industry-leading SMART Ink®. Only SMART allows participants to pick up a pen and write directly into and save annotations in original file formats, such as PDFs and Microsoft Office files.

Empower swift decision-making

SMART's large digital workspace and conferencing solutions enable teams and their external collaborators to effectively capture and communicate vital information in real-time by reviewing evidence and case materials and disseminating updates in emergency situations.

Mitigate tech roadblocks

Ensure seamless connection and collaboration when it matters most. SMART solutions fit securely into your existing technology setup and conferencing solutions. Team members can grab a pen and let ideas flow without the time-consuming learning curves.

Works seamlessly with Microsoft 365 Office apps and common file formats, including PowerPoint and PDFs

CRESTRON CONNECTED

Certified with Crestron Connected® and XiO Cloud®

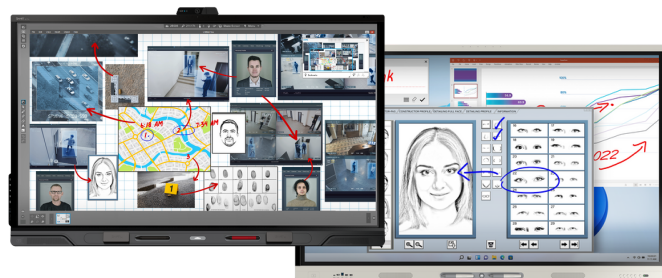

Give your teams a platform to ideate, create, make progress and inspire.
