Go beyond the expected.

With over 35 years of innovation, our solutions have empowered more than 65 million educators and learners worldwide.

From pioneering the first SMART Board, to leading global research on EdTech effectiveness, we design technology that transforms teaching, supports accessibility, and drives meaningful outcomes for every learner.

Tested. Trusted. Made for real life.

Product that goes beyond the expected.

We don't just build for specs — we build for the real world. SMART products are tested to handle the wear, tear, and unpredictability of everyday use, with proven durability, energy efficiency, and long-term performance.

Support that goes beyond the purchase.

Support shouldn't feel like reading from a script — it should feel like someone's actually there for you. At SMART, you get real, human-powered help, expert training, and a partner who sticks with you long after installation.

Expert support. Human powered.

Designed to inspire every mind.

Impact that goes beyond the ordinary.

From a single classroom to millions of learners around the world, SMART is trusted by educators, governments, and organizations that care about long-term impact. Because we're not just here for today. We're here to shape what comes next.

* 15W speakers and bonded glass on 55" MX series

** Optional/sold separately. MX(V5) and MX Plus series require the Tool Explorer accessory kit for cube and stamp use.

† Requires external microphone, not included

Product that goes beyond the expected.

Tested. Trusted.
Made for real life.

Future-proof your classroom.

To date, we've supported more than **65 million educators and learners across 175 countries**. From modular upgrades, to 10 years of regression-tested reliability, every SMART Board is engineered to grow with your needs and bring ideas to life.

Accessibility isn't optional - it's essential.

Inclusive design supports every learner. Our Tool Explorer and Digital Manipulatives unlock diverse methods of action and expression, **ensuring every learner can demonstrate their understanding** through flexible, interactive pathways — because every learner deserves a voice.

The #1 global leader in interactive displays.*

SMART is the only manufacturer with **inking that lets multiple users write, erase, and gesture at the same time** — anywhere, in any app — without ever interrupting each other's flow

Technology that cares about tomorrow.

Sustainability matters — for today, and every day after. That's why our **SMART Boards use less energy than most competitor's 75-inch interactive displays** — helping organizations cut power consumption and support a greener future.

Safe, secure and purposeful AI

Trusted by education ministries, military, government, and first responders, SMART delivers responsible AI that supports educators and protects privacy. **While others chase trends, we prioritize security and integrity** — because innovation should never compromise trust.

*SMART leads the global interactive display market (less China) with the largest share over the past 12 months, CY25 Q3 results as verified by FutureSource

Android 14

- User profiles
- Digital whiteboard
- Split screen and picture-in-picture
- Integrated with Google and Android ecosystem

65" | 75" | 86"

Key features:

- 4K Ultra HD, LED 50,000 hrs
- Up to 50 points of multi-user touch
- 4K UHD user interface
- Speakers 2 x 20W
- 65W USB-C 3.2
- Wi-Fi 6, BT 5.2
- 8GB RAM, 64GB storage
- Bonded glass
- Ambient light sensor
- Compatible with your choice of OS
- ENERGY STAR & Ecodesign compliance

Included:

- SMART Notebook
- SMART Ink
- SMART Mirror screen share
- SMART warranty

Sustainability:

More Energy Efficient than > 80%
of competing ENERGY STAR certified 75"
interactive displays on the market.

Powerful interactivity at a price you'll love

The SMART Board® GX Plus has all the essential teaching tools, plus quality you can trust, at a price that will surprise you. Now EDLA licensed for powerful Google and Microsoft integrations on Android 14.

Easy to use, powerful to adopt

Integrate seamlessly with your preferred OS, apps, and hardware to give teachers a familiar ecosystem that's easy to get started, with no need for additional training.

Only SMART interactive displays provide integrated annotation tools for Windows and mac OS and a full multi-user touch experience—with SMART Ink.

Interactive tools teachers love

Enrich any lesson from day one with free teaching tools and software designed for true walk-up-and-use simplicity.

Browse the web, share screens, use the whiteboard, widgets, and the Android apps and education resources teachers know and love—all on an embedded platform with the power and security of Android.

Minimum fuss, maximum peace of mind

Engineered to meet the demands of the modern classroom and backed by SMART quality and warranty coverage, this display is built to offer an intuitive user experience and effortless maintenance.

- Programmable Tool Explorer cubes & stamps

Sustainability:

More Energy Efficient than > 82%
of competing ENERGY STAR certified 75"
interactive displays on the market.

Explore what's possible

Built to evolve around your needs with market-leading ease of use, the SMART Board® RX series is the only interactive display that offers user-programmable tools to help you support inclusive classrooms.

Blend physical and digital worlds

Turn static lessons into immersive learning experiences with SMART's Tool Explorer technology for a participative learning journey like no other.

Delivering true multi-user interactivity

Let your students write, erase, touch, and gesture at the same time without interfering with one another's tool choices for a truly collaborative experience—only with SMART.

Security meets convenience

Save teachers time with quick access to their own cloud storage, files, apps, and more. Easily sign-in with QR code, web link, or NFC card.

* Some models may ship with Android 13. OTA update to Android 15 available early 2026

† Included for length of product warranty. Onsite service available in North America, UK & Ireland, Austria, Germany, Switzerland, Belgium, the Netherlands, Luxembourg, Australia & New Zealand

smarttech.com

SMART iQ 4 OS

*Purpose-built OS by the most preferred interactive display brand.**

Manage with ease. Teach with impact. Distinctly SMART

iQ 4 is the education-first operating system (OS) that keeps your SMART Board® interactive display upgraded for years, saves you time and money, and equips teachers with the go-to tools they'll use to boost student engagement every single day. iQ 4 is more than an OS—it's a smarter way to run your classrooms.

Powers MX & RX series displays and more**

The OS that delivers value – today, tomorrow, and long after

Upgrade the OS, not the screen. SMART's iQ 4-powered updates and modular upgrades give districts a smarter way to extend display life and stretch every dollar – for up to ten years. **ONLY with SMART.**

Get more from your display. SMART Boards with iQ 4 can double as:

- Digital signage
- Security alert system end points
- Teacher audio amplification
- Google Workspace devices

35 years of making teaching easier with classroom-first design – only with SMART.

We designed purpose-built iQ 4 OS in-house with real classrooms in mind, using extensive research, testing, and field validation. The result? Smoother deployments, teacher-friendly workflows, and less downtime.

Safe, secure and purposeful AI

Access the power of AI in SMART iQ 4 to save time and support lessons on the fly.

Talk, Touch, Teach. Use Gemini AI on your SMART Board to blend voice-generated commands and content with multi-touch interaction—so teachers can create, adapt, and teach on the fly. No typing. No toggling. Just teaching.
(New & improved in iQ 4.7)

Prep time, meet AI. Lumio's AI tools instantly generate standards-aligned lessons and quizzes for use on your SMART Board – so teachers spend less time planning and more time teaching.

iQ 4 AI suite. Automatic OTA updates to new tools for front-of-room teaching (coming soon)

* according to feedback gathered from a closed-group study focused on comparative product evaluation.

** iQ 4 available on SMART Board RX series, MX-V5, MX Plus, and any display using the AM60 OSP computing appliance.

SMART iQ 4 OS

Personalized OS for intuitive teaching and IT management

A system designed for security and simplicity with personalized, portable sign-ins and centralized remote management. The most robust, flexible, and accessible OS to date.

Built for IT. Ready for anything

iQ 4 combines enterprise-level admin controls and powerful remote management capabilities that scale across your fleet. Ensure data protection, regulatory compliance and manage and troubleshoot devices centrally without breaking a sweat.

Private. Portable. Protected

Teachers securely access their profile and cloud files on any SMART display with their **Google or Microsoft credentials** thanks to SMART Account roaming profiles.

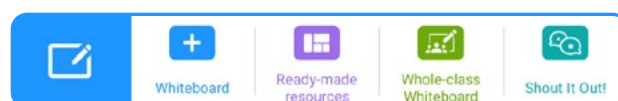

- **Your policies, your sign-in.** Flexibly sign in without adding new passwords to manage or compromising security.
- Secure access in shared spaces.
- Lock down guest access

Walk up and teach

The OS that works with what you know.

EDLA-licensed iQ 4 fits right into your district's ecosystem—no retraining required. iQ 4 works great with:

- Google Workspace for Education
- Microsoft Office 365
- Android apps, with full access to Google Play
- Video conferencing platforms

Less training, more teaching.

Built-in apps are so intuitive that even day-one teachers can jump right in to supercharge engagement and maximize student devices.

iQ 4 OS and apps available on: SMART Board MX(V5), RX series, and AM60 OPS appliance.

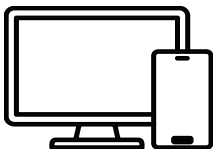

SMART iQ 4 apps

Tools for teaching and learning

With included, built-in teaching apps, AI tools and student device integration at your fingertips, it's easy to boost engagement, deepen understanding, and get students working together—no matter where they're sitting.

Instant access to teaching tools that keep students engaged

No prep? No problem. Built into the iQ whiteboard, research-based templates, digital manipulatives and media tools help teachers boost engagement for any topic without breaking stride. No setup, no learning curve.

Power participation across every student device

Let students lead the learning. With iQ 4, students can share ideas in real time, brainstorm together, and build skills that matter. **Teachers keep control over which pages are collaborative – only with SMART.**

- Connects student devices in seconds
- Ready-made Exit Tickets gather feedback that matters

Tool Explorer

Every student, every voice. SMART's exclusive Tool Explorer accessories turn touch into communication in iQ 4. Students interact in non-verbal ways that feel natural to them. **ONLY** with SMART.

- Programmable Cubes
- Programmable Stamps
- SMART MultiStylus - instructional pen and Air Mouse (*coming 2026*)

Learning software teachers love

FREE with no subscription required!

SMART Mirror

Screen share that keeps you teaching. Give teachers true freedom—to move, present from any device, and maintain control of their SMART Board. Stress-free, seamless screen sharing for more engaging lessons, without the tech headache.

- **Present your way—any platform, any device, anywhere.** Connect and share via AirPlay, MiraCast, Google Cast, a web browser, app, and more.
- **Move freely and stay fully in control of your lesson.** From broadcast to remote screen control, SMART Mirror gives teachers the tools they need to engage and moderate lessons.
- **Engage your class, not your IT department.** Designed for stability and security, SMART Mirror keeps teaching simple and tech teams happy.

SMART Ink

Transition easily between programs, PDFs, and other lesson materials. SMART Ink is the **ONLY** inking software that lets you write everywhere, all at once, without blocking interactivity.

- **Intelligent activation:** Just pick up a pen and write – it works!
- **Put an end to re-writing notes:** SMART Ink sticks to multiple windows simultaneously, letting you move naturally between files and software without losing your work.
- **No overlays:** Write and navigate within content and programs at the same time
- **Easy saving:** Save your ink into PDF and Microsoft Office file formats

SMART Notebook

Optimized for SMART Board interactive displays, award-winning SMART Notebook is **FREE** learning software that helps you create dynamic, interactive lessons that encourage active learning.

Enable hands-on learning in a digital environment no matter what you're teaching, increasing student engagement and knowledge retention.

- Tools to help focus student attention like spotlight, screen shade, and Magic Pen with disappearing ink
- Simple and intuitive design for Mac and Windows
- Thousands of free, ready-made lesson resources from SMART Exchange

 **Light up
learning**

Meet Lumio: the teaching companion that **brings AI capability and human creativity together.**

From PDFs to Google Slides, PowerPoint to SMART Notebook, Lumio transforms existing curriculum resources into **dynamic, engaging learning experiences** on any device. Educators can help students explore interactive experiences and gather insights into learning with activities, games, group workspaces, formative assessments, and more, all from a single place.

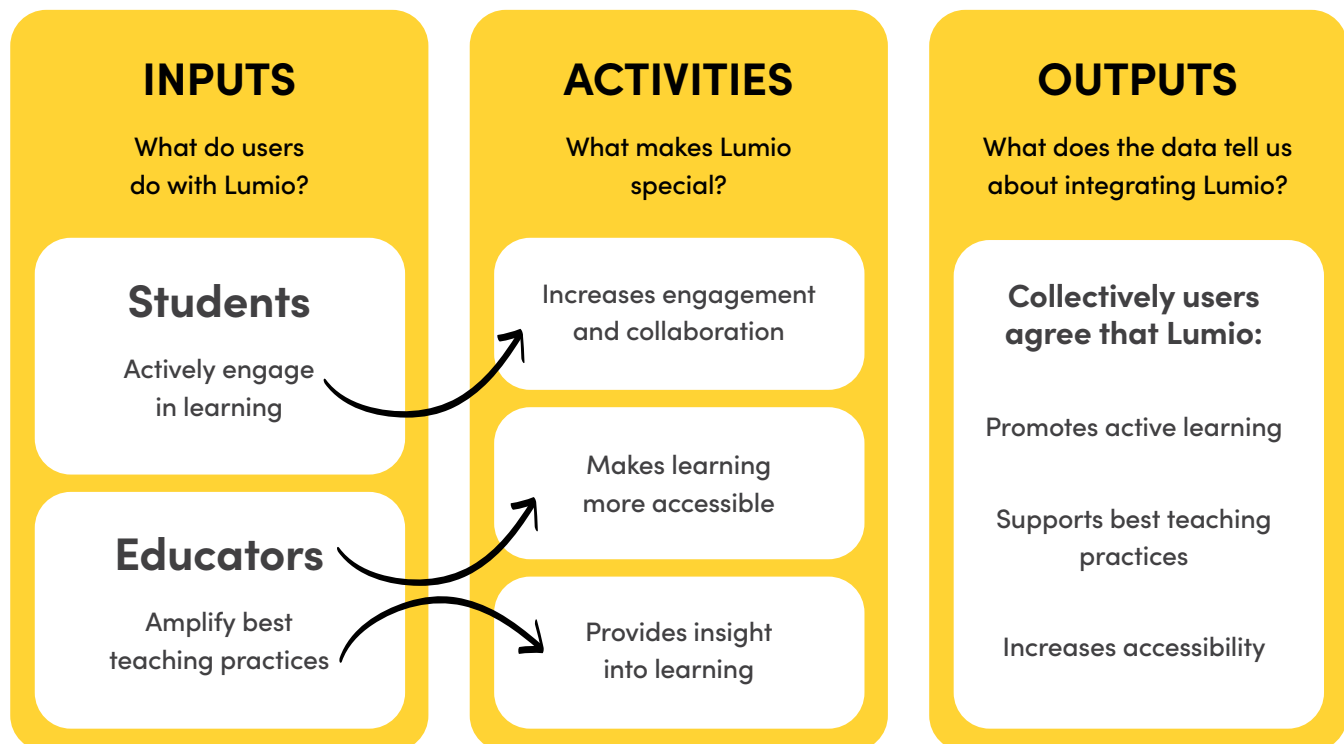

Save costs and simplify your tech approach with a tool that lets teachers do it all—plan, evaluate, and deliver fun, engaging lessons—in one powerful web-based learning platform.

Why schools and districts love Lumio:

- ✓ AI functionality that supports teachers at any grade level
- ✓ Amplified best teaching practices and actively engages students
- ✓ Increased the impact of student devices
- ✓ Research-based design and Digital Promise certified
- ✓ Efficient workflows and ecosystem integrations
- ✓ Simple deployment with exceptional privacy and security

Specifically designed to improve student outcomes—it's not just fun, it works!

 27"

Key features:

- 4K UHD display with integrated touch
- Video in and out sharing
- Mountable or free-standing with 120° tilt
- Charging, touch, data, and video through one USB-C cable (65W)
- Exceptional writing experience with 4,096-point precision stylus
- Supports both Windows and Android based OPS computing options
- Utility at your fingertips
- 4K removable camera
- 8-microphone array
- 12W sound

Computing options:

- SMART OPS PC module (Windows 11 Pro)
- SMART AM60 OPS module (iQ 4 Android)
- SMART Chrome OPS module
- Supports plug & play with Windows, Mac and Chrome OS devices

The next generation of interactive podium

The SMART Board® Mini Interactive Podium is the canvas that teachers and faculty staff can use for interactive lessons while facing what's important: their students.

Bring interactivity anywhere

Mirror content to any external display through either HDMI or USB-C—no extra splitters or switches needed. Pair a SMART interactive display with the SMART Board Mini, and interact and get real-time touch back with lesson content on both devices.

Complete video conferencing

Present to remote and in-person students with a 4K AI-enabled camera, 8-microphone array, 12W of enhanced sound output, and 27" 4K UHD display.

Teach your way

The ONLY interactive podium device with an integrated OPS PC module slot for Windows and Google-certified appliances, giving teachers the choice of which operating system they teach best in.

 65" | 75" | 86"

Key features:

- QLED with Full Array Local Dimming
- 4K UHD resolution
- OS-free design
- 50 points of touch
- Simultaneous tool differentiation
- Object awareness
- Integrated 8-mic array
- 2x 20W speakers + 20W subwoofer
- USB-C with 100W power delivery
- ENERGY STAR and Ecodesign compliant

Included software:

- SMART Ink and SMART product drivers
- SMART Notebook

The Dolby Vision difference:

Teach with the brilliance of QLED

The SMART Board® T Pro series is guaranteed to deliver more than just 4K UHD. QLED technology involves multizone dynamic color control, high brightness and high-contrast ratio for an elevated teaching experience.

Teach in your favorite OS

Walk up to the display and either connect a single USB-C cable to your laptop, or use a SMART OPS PC module to work with the OS of your choice.

The best inking experience

Pick up a pen and write directly into PDFs and Microsoft Office files and save them in their native file format thanks to SMART Ink. Easily switch between whiteboarding and programs without losing your notes.

Quality that stands the test of time

SMART products offer one of the lowest failure rates in the market and go through rigorous accelerated life testing for extreme pressures, temperatures, impacts, and more so that users can be confident in their purchase.

 65" | 75" | 86"

Key features:

- 4K Ultra HD, LED 16:7 Runtime
- Native and app-based screen sharing
 - SMART Mirror App
 - Miracast
 - Airplay
 - Google Cast
 - Browser-based
- Included remote (with air mouse capabilities)
- Included SMART USB-C cable
- Compatible with any SMART interactive display
- Faster, louder, clearer:
 - Android 13
 - Zero bonded glass
 - Wi-Fi 6, BT 5.2
 - 2x 20W speakers
 - 15W USB-C
 - 8GB RAM, 64GB storage
- ENERGY STAR & Ecodesign compliance
- Backed by SMART Warranty
- HDMI Output, integrated networking
- RS232 Support

Optional extras:

- SMART Remote Management software
- SMART Board computing modules

Complete your ed-tech deployment

Make screen sharing and digital signage easy to manage in schools. The SMART Board® NX series is a reliable, energy-efficient commercial display that follows SMART's high quality standards.

Screen share the way you want

Whether used alone or with another interactive display, share your screen through your local WiFi, a browser, an app, or a single cable.

Digital signage anywhere you need it

Provide crystal clear updates and information in reception areas, corridors, and assembly halls with a display designed to last.

Consistency guaranteed

Don't mix and match your tech. Stay within a single reliable ecosystem at an affordable price.

Technology that grows with you

Enjoy years of reliable performance and interactivity. Plus, with over-the-air updates, you'll get new features, OS upgrades, and security patches — all delivered automatically. **Because your technology should last as long as your vision.**

SMART AM60 iQ appliance

SMART iQ 4 on Android 15* with Google EDLA

Turn yesterday's purchase into today's powerhouse. With the new SMART AM60 OPS upgrade appliance, your existing displays still have plenty to give!

Deliver speed, tools, and power while protecting your budget.

- Built and tested exclusively for SMART interactive displays released as early as 2015
- Enhanced security features for peace of mind
- No cabling or extra hardware required
- Tech specs that keep you ahead of the curve

Enjoy faster load times, smoother inking, and enterprise-grade safeguards, all in one tidy, cable-free solution.

SMART Windows PCM modules

SMART Board Computing modules bring the power of **Windows 11 Pro** to your interactive displays. Access Microsoft Office® files and all your applications for true walk-up-and-use simplicity.

SMART Chromebox® OPS module

An easy gateway into a **Google ChromeOS** environment for schools and businesses. Fully compatible with select SMART Board interactive displays.

Accessories

SMART Document Camera 650

Connect digital learning to the physical world in high definition. Capture, share, and connect both in-person and remote students to tangible concepts. Perfectly integrate physical notes into SMART Notebook lessons. A remote control makes the capture, recording, and broadcast of lessons simple.

- 4K Ultra HD, 13 MP camera
- Seamless integration with iQ whiteboard
- 10X optical zoom, 230X total zoom
- Built-in microphone
- Wired or dual-brand Wi-Fi
- Peer-to-peer wireless connectivity
- HD video conferencing (UVC compliant)
- 5-year warranty

- Ultra HD 4K resolution with AI auto-framing
- Compatible with all mic-array enabled SMART interactive displays
- Remote control included

SMART Camera UHD 120 Webcam

Provide a rich, immersive visual experience designed for the needs of the modern classroom. The SMART Ultra HD Camera 120 mounts flush to the top of the interactive display bezel for effortless remote and hybrid learning.

Electric height-adjustable stands

Add flexibility to any SMART Board display with industry-leading height adjustment to support a variety of learning and collaboration environments.

Mobile stand

Create interactive spaces anywhere—from large halls to small-group areas.

Wall stand

Avoid expensive wall reinforcement by transferring the weight of the display to the floor.

- Fits all SMART Board series and sizes up to 86"
- ADA compliant
- 5-year warranty

Support that goes beyond the purchase.

Expert support. Human powered.

Support shouldn't feel like reading from a script — it should feel like someone's actually there for you. At SMART, you get real, human-powered help, expert training, and a partner who sticks with you long after installation.

Our support sets the industry standard.

With a 94% satisfaction rate, and 75% of cases resolved in under 24 hours, we believe it should take less time to get help than it takes you to read this.

People-powered support near you.

We're here in your time zone, whenever the sun's up for you. And if things need extra attention, our global team keeps working — so you're never stuck waiting for someone to finish their sandwich.

Support that doesn't feel automated.

Backed by 2,000+ partners worldwide and dedicated adoption teams — we make success effortless from day one, and every day after.

Professional Learning

Great teaching means greater results.

SMART leads with pedagogy-based onboarding materials, not product demos, giving teachers the confidence and strategies to create meaningful learning experiences.

FREE Unlimited professional training:

- **Getting Started Resources**
- **Professional Learning**
- **Global Communities**
- **SMART Academy** - Only SMART offers a dedicated Online Academy that blends research-based pedagogy with hands-on tech training for truly powerful adoption.

Expert led professional development

Unlock the full potential of your tech investment with hands-on training from expert educators. Choose live or remote sessions customized to your goals with:

- Content aligned to your tech and learning objectives
- Integration with your curriculum
- Shareable training resources

Built to last. Built for the planet.

SMART products are tested for real-world durability — from extreme temperatures to high-impact conditions. And we're committed to more than reliability: by 2035, **we'll cut emissions per display transported by 30%**, because smarter technology should create a greener world.

Security without compromise.

Trusted by education ministries, military, government, and first responders, SMART delivers technology that supports educators and protects privacy.

Your information stays safe, secure, and worry-free — whether in-room, on mobile, or remote. Data is hosted on trusted AWS and Google Cloud platforms, and GDPR compliance ensures European customers can choose EU-based storage.

While others chase trends, we prioritize security and integrity — because innovation should never compromise trust.

Safer schools with your SMART Board.

SMART Boards can double as emergency alert system end points, saving you money and maximizing your tech investment.

SMART's emergency alerts integrations enable schools to deliver clear visual and audio notifications during critical events, without additional hardware or cost.

Available now on all displays with built-in iQ 4.

Additional integrations coming soon.

Not just for classrooms:

Solutions for every learning space

SMART solutions are designed for active learning. Our software and hardware connect students and teachers to create a truly engaged learning environment wherever they are.

Classroom

Create an enriching classroom environment with tools that encourage collaboration and engagement. Teachers and students can walk up and ink on a wide variety of file types without freezing the screen for a more dynamic and fluid lesson environment.

- Easy workflows for teachers
- Dynamic collaboration
- Student device integration

Campus

Keep students, parents, and teachers in the loop about upcoming events, closures, and other important information throughout the year. Engage and inspire your student body with content that fosters a thriving school spirit.

- Signage
- Catalogue/directory
- Student body announcements

Library

Encourage access and collaboration for every learner. Simple walk-up-and-use tools increase student engagement and facilitate study groups.

- Signage
- Catalogue/directory
- Study areas

STEM lab

Give students hands-on access to dynamic STEM learning tools and programs. Easy collaboration and interactivity bring complicated concepts to life on the board or on student devices.

- Easy collaboration
- Instant access to dynamic content
- Simulations and modelling

Study/student collaboration areas

Create learning hubs for your students to collaborate and grow. Enriching games, interactive lessons, and free-form brainstorming options make collaboration a natural part of the learning experience

- Simple to use inking
- Collaborative programs included
- Exciting lesson formats students love

Assembly Hall

Communicate ideas more effectively by augmenting content with touch, gestures, and digital ink. Deliver interactive lectures and presentations while facing what's important: your audience.

Impact that goes beyond the ordinary.

From insight to impact.

We lead the world's largest ongoing study on EdTech effectiveness. In minutes, **our free EdTech Assessment Tool** reveals **how effective your strategy is** — with tailored, research-backed insights to drive improvement.

We're closing the digital divide.

At SMART, we don't just build tools — we create catalysts for learning, connection, and progress. That's why we're proud to support a global effort to bring access to over 825 million youth who are still left behind — building a stronger, more resilient digital workforce for tomorrow. Will you join us?

Technology that cares about tomorrow.

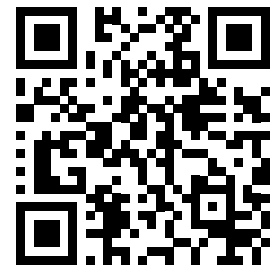

SMART has partnered with the University of Melbourne and six schools to explore how EdTech empowers neurodivergent learners — shaping a global roadmap for inclusive education.

Explore the 36 recommendations for inclusive classroom experiences and see how they map to UDL Guidelines 3.0.
